

## PRESS RELEASE

15 OCTOBER 2014

### A NEW START FOR METRONOME TECHNOLOGIE

> Métronome Technologie was founded in 1987, and the brand has developed along the years a global reputation for its audio numeric players. The company designs and manufactures all the products in France, in its workshop located in Roquemaure near Toulouse.

> 2014 is an important step in Métronome's history, since the founder Dominique Giner decided to cease his own entrepreneurship activities, and transferred the limited company to new associate managers, a few weeks before Summer 2014.

> Christian Bat, aged 57, et Jean Marie Clauzel, aged 53, both passionate audiophiles, now enjoy their dream to operate a company such as Métronome Technologie!

Christian Bat, Dominique Giner et Jean Marie Clauzel

> **A full basket of innovations !** With the entire support of Dominique Giner as a Designer, the high-end company develops a huge program of new products. From 2014 Fall, Métronome catalog will be enriched with a brand new CD player, and important technological evolutions on their converters which will include DSD64 and DSD128 formats. To be unveiled quickly !
