As always, a product all Handmade in Italy, with precise, functional and very stylish assembly, as well as an extraordinary solidity due to a fully one piece body, so as for each Care Orchestra, the technique is integrated with the elegance and style "Made in Italy" to create products that combine maximum performance of sound reproduction with a taste for luxury and the interior design.

The elegant Packaging in wood, aluminum and high quality acoustic polyurethane guarantees, as well as easy handling, a complete protection from bumps and vibrations.

The "Sartoria Acustica Italiana" offers even in this case the absolute personalization of finishes for every buyer with laquering and skins of all kinds: each product is completely configured by whom orders it, heard, and packaged as a tailored suit, starting from an established and strong project of superb acoustic results.

Even for this product, as with all Care Orchestra bookshelf or stand speakers, it is available an elegant stand that perfectly integrates with the loudspeaker, ensuring the correct vertical positioning, stability and elegance for even the most demanding customers.

Divina Minor "Duetto Edition" : the synthesis of precise craftsmanship with amazing characteristics of finishing and performance
